## Year-at-a-Glance Pacing Guide

Students and parents can look at what they will be learning in the next grade by using this resource. The standards have learning links, activities, and resources aligned to them.

The **Year-at-a-Glance** (YAG) is a document that informs parents and students of the recommended pacing and content standards for selected courses. It includes the topics to be taught week by week each quarter and a list of instructional resources. The YAG is only a recommended pacing guide; school leaders and teachers make the final decision regarding the pacing of any program of study. The classroom teacher is always the best source of information regarding content and pacing. The YAG is supplied as a model of one recommended path to the completion of a course.

### St. Johns County Public Library

**Libraries Rock! Program:** Take advantage of this free resource and visit your public library online or in person. Last summer our county libraries provided over 500 active programs for children and teens.

**SJCPLS:** <http://www.sjcpls.org/>

### **B&N** Barnes & Noble Summer Reading Program

Participation is a fun and easy way for kids to earn free books. They simply read a designated number of books – library books, books borrowed from friends or books bought at Barnes & Noble – write about their favorite part in our Reading Journal, and bring a completed Reading Journal to a Barnes & Noble bookstore. Children then choose their free book from the books listed on the Reading Journal and collect their free book from a store near them during July and August.

### Scholastic Summer Reading Program

The Scholastic Summer Reading program (May 9 - August 19, 2022) offers kids an exciting, free, and safe summer reading experience, while helping to provide books to kids with limited or no access over the summer, keeping every child reading.

Khan Academy

## Khan Academy

Khan Academy has content from all major subject areas to seamlessly cover curriculum in grades K-12. With embedded assessments, and automatic differentiation, Khan Academy ensures that each one of your students succeed at their own pace. (You must register with a parent email for a free account to complete grade level missions.)

Khan Academy: <https://www.khanacademy.org/>

## Reflex Math

**R Reflex** Reflex builds math fact fluency, which is essential to success in mathematics. Kids gain fluency by learning "fact families," in which they focus on a set of facts for a group of numbers. Subtraction and addition are paired and taught together. Similarly, multiplication and division facts are taught as a family.
